

News from Allen and Deedee April and May 2026

Shortly after Easter, Deedee spent an uplifting and productive week in Asia for her in-person meeting with the rest of the global crisis management team.

Dear friends and family, we pray you have been experiencing the Lord's blessings, and a beautiful Spring! Thank you tremendously for all your prayers, support, and encouragement, making all our work here possible.

In April, we celebrated Easter with our church in Versailles. We are thankful for their fellowship and encouraging times of

worship together in English, and for our weekly small group meeting with them where we study the Bible and different Christian books and topics together.

Please pray for our Network team:

It is a blessing for us to get to work with a great variety of staff and diverse ministry strategies, who have the shared goal of bringing the Good

News of Jesus Christ to the people who have come to Europe from North Africa, Central Asia, or the Middle East. Please pray for the Lord to guide, direct, and inspire each of us, in the specific work He has called us to. Pray that God would provide good relationships, enough workers, and effective outreach for each location, project, and language group.

Thank you again!

Serving with you,

Allen and Deedee

Meanwhile, I (Allen) have been busy helping one of our new ministries get their organizational and financial structure set up. This new work is a "pilgrim house" in Italy, like the albergue (photo on left) that our Spanish colleagues run to minister to pilgrims on the famous Camino de Santiago. The new ministry team is purchasing an existing religious hostel, in order to run a similar outreach along the pilgrim route to Rome.

We just had an office cookout with 35 colleagues and guests, to say "Hello" to Spring and "Farewell" to a short-term team who Deedee had helped relocate in March. One of that group had continued his digital strategies work at our office, while the rest joined with our local colleagues to help in outreach to international students in Paris.
